

Contract for projects/theses at SCIENCE

For credit students only

Most fields must be completed in agreement with your supervisor – but some fields must be completed based on the rules for the project type. It is your own responsibility to complete the contract correctly. If in doubt, ask your supervisor.

Here you must fill in information about yourself. If you write the project in a group, fill in the same information for all group members. You only need to complete one joint contract.

Place of employment:

**Information about
the project topic**

Project title or overall topic:

Elaborate on what the project will be about:

**Information about your
project process**

You and your supervisor must discuss and agree on the expectations you have of each other during the project.

How many hours do you expect to spend on supervision?

How many hours do you expect to spend on preparation?

How many hours do you expect to spend on writing the report itself?

How many hours do you expect to spend at the company/
organisation (if relevant)

You must spend a minimum of 206 hours per 7.5 ECTS credits on your overall project, i.e. on supervision, preparation, writing and any time spent at the company/organisation.

Write how often you expect to meet:

What have you agreed that your supervisor should contribute to the meetings?

What have you agreed that you should contribute to the meetings?

If you have agreed on anything else, write it here:
